Hi Deldi

I would put Dusty Minor as the co-contact for the PRP search item.

Thanks

John Lyons

Acting Assistant Director

California Site Cleanup and Enforcement Branch

Superfund Division, Region 9

(415) 972-3889

**Subject:** Exide - my notes re follow up and update re ATSDR

I hear that there is a meeting planned or has been requested by Supervisor Solis with the Administrator. Have you all heard anything?

I offer the following list of follow up items from our meeting with DTSC this week . . . please let me know if I missed anything.

### **1) Formal review by EPA of plans**

-of closure plan, comments are due by Mar 28. After the meeting, Su Patel asked me to give you Tom, her contact info. She recalls working with Ron Leach and wants to reconnect with him.  
[Suhasini.Patel@dtsc.ca.gov](mailto:Suhasini.Patel@dtsc.ca.gov)

-residential clean up plan – currently in development; DTSC will share draft with us ahead of public release

### **2) Treatment of lead in kettles**

Other Exide facilities (Muncie, Pennsylvania) with closure plans – research treatment (Tom)

### **3) PRP searches**

EPA can partner / support, John L as contact

(Note: Amy M has asked NEIC to keep an EPA R9 rep in the loop on all data sent to the AG's office; should this be John L?)

Hi Y'all – Good to chat this morning. Turns out the call was well timed. I heard today that ATSDR management is interested in Exide and would like to consider activities we might be able to take on. We'll brief our management on the site. I think bringing federal folks together to coordinate would be great.

-Ben
